This workshop is geared towards men and women who are currently unemployed or underemployed, and will cover a few special challenges you face today: skills, competition and depression. That's right – depression! Even with the right skills for the job and a lead on the competition, untreated depression can knock you out of getting hired. Learn what you can do to treat depression right away PLUS a great closing question to increase your chances of getting the job.

Dr. Barbara A. Cohen, Ph.D., MFT is a researcher, psychotherapist, writer and coach, specializing in adult depression as well as ADHD. She has a special interest in the casual and often poor treatment of depression in our society, with an eye towards more personalized care and better outcomes. She is 1 of 4 researchers in CA and the only one in LA County offering no cost assessments, follow up and medication coverage for up to 6 months. Dr. Cohen's facility, Center for Healing the Human Spirit, is conveniently located in Tarzana, CA and has appointments on Sundays, Mondays and Wednesdays.

She is also a CEU Provider, and 1 CEU will be offered for attendance for LMFTs and LCSWs.
